Abstract not available for HU9802308

Abstract of corresponding document: **WO9634846**

Compounds of 1,3-propane diol linked structure (I), when for use in therapy, where R<1> is an acyl or fatty alcohol group derived from a C12-30 preferably C16-30 fatty acid desirably with two or more cis or trans double bonds, and R<2> is hydrogen, or an acyl or fatty alcohol group as R<1> the same or

different, or any other nutrient, drug or other bioactive residue.
